Subject: RE: Press planner - add OR CZARA action in late October

Sounds good. This press planner is something that Travis sends out periodically to identify big events/actions by OW in the next 90 days. So, likely there will be another request for updates to the press planner later this fall for the next 90 days... But this timing is not always precise. But sounds like a plan to consider giving me a little blurb in Oct. Thx

So to be sure I understand, you want me to add a tickler around mid-October to ensure that I take the lead to get the OR CZARA decision into the OW Press Planner by late October. Correct?

Don,

Anne is coordinating AWPDP's entries into the OW Press Planner. Would you please put it on your to-do list to provide Anne with an entry for the OR CZARA decision? The press planner only works 90 days ahead so late October is when this item should be added to the Planner for the January 30 action.

Thanks,
Lynda
